

**Solution for 3 bedroom apartment(only for reference)**

Place	Configuration Instruction	Picture	Item	Quantity (PC)	Product description
Living Room	1. smart lighting system 2. smart environment monitoring system 3. smart appliance system 4. smart curtain system 5. smart security system for this room		smart gateway	1	Brain of the whole smart home system. Plug and play. Just need to connect to the router and power. Scan its QR code and add to the smart phone APP, then can control all of the smart equipment.
			Smart remote controller	1	Smart remote controller can learn from the original remote controller and replace all of the remote controller.
			Smart wall socket	2	Power on/off control Timing function Can be controlled via APP USB 5V recharge
			smart curtain system	1	includes curtain motor, curtain track, curtain remote controller
			smart wall switch	2	Control the lights Touch control/APP control
			Smart environment monitor	1	Monitor the air, temperature, humidity, lighting, PM2.5
			Smart IPC	1	auto IP setting, P2P plug and play 12PCS leds, 15m IR distance. Video record to memory card (Max 32GB) 1 megapixel 720P
			Smart NFC paster	1	Write with the specified mode, can control the smart appliances according to the mode when sense the smartphone, NO need to open the APP, make your smart life smarter
			Smart Led bulb	4	E27 interface, can change 16 Millions colors

Kichen and dining room	1. smart lighting system 2. smart appliance system		Smart wall socket	2	Power on/off control Timing function Can be controlled via APP USB 5V recharge
			Smart Led bulb	2	E27 interface,can change 16 Millions colors
			smart wall switch	1	Control the lights Touch control/APP control
Main Bedroom	1. smart lighting system 2. smart appliance system 3. smart curtain system 4. smart environment monitoring system for this room		Smart remote controller	1	Smart remote controller can learn from the original remote controler and replace all of the remote controller.
			Smart Led bulb	3	E27 interface,can change 16 Millions colors
			Smart wall socket	2	Power on/off control Timing function Can be controlled via APP USB 5V recharge
			smart curtain system	1	includes curtain motor, curtain track, curtain remote controller
			Smart environment monitor	1	Monitor the air, temperature, humidity, lighting, PM2.5
			smart wall switch	1	Control the lights Touch control/APP control

Spare Bedroom	1. smart lighting system 2. smart appliance system 3. smart curtain system for this room		Smart remote controller	1	Smart remote controller can learn from the original remote controller and replace all of the remote controller.
			Smart Led bulb	2	E27 interface,can change 16 Millions colors
			Smart wall socket	2	Power on/off control Timing function Can be controlled via APP USB 5V recharge
			smart curtain system	1	includes curtain motor, curtain track, curtain remote controller
			smart wall switch	1	Control the lights Touch control/APP control
Study Room	1. smart lighting system 2. smart appliance system 3. smart curtain system 4. smart security system for this room		Smart remote controller	1	Smart remote controller can learn from the original remote controller and replace all of the remote controller.
			Smart Led bulb	2	E27 interface,can change 16 Millions colors
			Smart wall socket	2	Power on/off control Timing function Can be controlled via APP USB 5V recharge
			smart curtain system	1	includes curtain motor, curtain track, curtain remote controller
			Smart IPC	1	auto IP setting, P2P plug and play 12PCS leds, 15m IR distance. Video record to memory card (Max 32GB) 1 megapixel 720P
			smart wall switch	1	Control the lights Touch control/APP control

Toilet	1. smart lighting system 2. smart appliance system		Smart Led bulb	1	E27 interface,can change 16 Millions colors
			Smart wall socket	1	Power on/off control Timing function Can be controlled via APP USB 5V recharge
